

**GEORGIA DEPARTMENT OF NATURAL
RESOURCES**

**MANUAL FOR
GROUNDWATER MONITORING**

ENVIRONMENTAL PROTECTION DIVISION

SEPTEMBER 1991

The Division gratefully acknowledges the participation and input of the following staff members in the development of this document.

EPD Task Force on Ground Water Monitoring

Mark Beebe, Water Protection

David Brackett, Geologic Survey

Ken Davis, Geologic Survey

Harold Lanford, Program Coordination

Shirley Maxwell, Land Protection

Robert Pierce, Water Resources

Danny Rice, Program Coordination

Deborah Siemon, Water Protection

Ed Urheim, Water Resources

Tom Watson, Land Protection - Chairman

Randy Williams, Land Protection

TABLE OF CONTENTS

Page Number

I.	INTRODUCTION	1
	<u>Purpose, Scope & Applicability</u>	
	<u>Quality Control</u>	
	<u>Objectives of Monitoring</u>	
	<u>Two-Stage Monitoring Concept</u>	
	<u>Monitoring Network Design</u>	
II.	PLACEMENT OF DETECTION MONITORING WELLS	4
	<u>Horizontal Spacing Between Downgradient Wells</u>	
	<u>Depth of Wells/Vertical Sampling Interval</u>	
	Depth of Wells	
	Thickness of Vertical Sampling Interval	
	<u>Placement of Upgradient (Background) Monitoring Wells</u>	
	<u>Defining Contamination</u>	
	<u>Assessment of Contamination</u>	
III.	MONITORING-WELL DESIGN AND CONSTRUCTION	10
	<u>Drilling Methods</u>	
	<u>Monitoring-Well Construction Materials</u>	
	Well Casings and Screens	
	Filter Pack and Annular Sealant	
	<u>Well Intake Design</u>	
	<u>Well Development</u>	
	<u>Documentation of Well Design and Construction</u>	
	<u>Well Plugging</u>	
	Sealant Materials	
IV.	SELECTION OF TEST PARAMETERS	19
	<u>Sanitary Landfills</u>	
	<u>Industrial Waste Disposal Sites</u>	
	<u>Land Treatment Facilities</u>	

TABLE OF CONTENTS (CONTINUED)

	<u>Page Number</u>
V. SAMPLING AND ANALYSIS	21
<u>Elements of the Sampling and Analysis Plan</u>	
Well Preparation	
Sample Collection	
Sample Handling and Preservation	
Blanks	
Chain of Custody	
Analytical Procedures	
Field and Laboratory Quality Assurance/Quality Control	
<u>Analysis of Results</u>	
VI. RECOMMENDED REFERENCES	28
VII. APPENDIX I	29
VII. APPENDIX II	33

TABLES

	<u>Page Number</u>
II-1. FACTORS USED TO ADJUST HORIZONTAL SPACING OF MONITORING WELLS	5
II-2. FACTORS AFFECTING NUMBER OF WELLS PER LOCATION	7
III-1. DRILLING METHODS FOR VARIOUS TYPES OF GEOLOGIC SETTINGS	12
V-1. PRESERVATION PROCEDURES AND HOLDING TIMES	24
